

## SubCaptioner now includes the ability to do live captioning from the SubCaptioner Cloud

SubCaptioner is the fast, easy and affordable way to get both file-based and live captions, transcriptions and translations.

SubCaptioner is BroadStream's automated transcription service that takes the innovation of our ASR captioning solutions to the masses. This online captioning tool makes creating captions for live and pre-recorded media files easy and affordable.

No longer are human captioners and transcribers needed to transcribe speech-to-text. SubCaptioner does the work in minutes.

All it takes is **three easy steps**: Upload your files, pay using our secure checkout system, and download your ASR-created caption and transcription files.

### why ASR?

Up to  99% accurate.

 Faster & more affordable  than human captioners

Saves you  time &  effort.

# SubCaptioner, Live and File-based Captioning for Content Providers. Production Houses, Commercial, Government, Religious, Educational and Broadcast facilities.

**On-demand, pay-as-you-go, and easily integrated with your AV systems**

**Low latency**

**Available 24/7**

**No scheduling**

**Low cost**

Automatic real-time captioning or subtitling can enhance accessibility of your live content at a very low cost, much less than any traditional human driven service. Powered by advanced automatic speech recognition (ASR) technology, SubCaptioner now provides closed captions and subtitles for live audio feeds.

Our automatic live caption generator is easy-to-use and accessible 24 hours a day. There's no need to schedule, just log-in, ensure you have pre-paid credit then "Go Live".

**SubCaptioner is perfect for business, creators, professionals, educators and small broadcasters.**

Creating captions, subtitles, transcripts and even translations for live and file-based content is amazingly affordable and easier than you think.
