

Release Note

Wincaps Q4/Q-Live V4.44.12

Author: R. Lees

Date: 17th October 2024

1 Installation

This release comprises:

- Wincaps Q4 and Q-Live clients
- Wincaps Q4 DVD Builder and Video Indexer.
- Wincaps Q-News, Wincaps Q-Live Gateway, Wincaps Q-Live File Server, ASR components for Q-Live.

2 Wincaps Q4/Q-Live Client Installation Procedure

****IMPORTANT****

- Host O/S Windows 10 or above.
- Valid licence file must be available for each client machine.
- User account performing installation must have full administrator rights on the local machine.
- Wincaps is not supported on a Mac.
- Wincaps clients are not supported on a virtual machine.

2.1 Prerequisites

Install the following prerequisites (if not already present) using the default options;

- MS Office Word full installation, Office 365, installed locally (for spell checking).
- Media Player (latest version appropriate to operating system)
 - **Note:** *If using Windows 10 N versions, you will need to download the relevant media pack before installing Wincaps Q4.*
- QuickTime is required if using the 'Offline Media' option for Video Playback of MP4 and MOV
- Sound Card recommended for use with MediaLooks MultiFormat video playback option
- External Graphics card recommended for Desktop PCs for video playback
- Uninstall the current version of Wincaps Q4/Q-Live (if present) via add/remove programs.
- Install the new client using the exe installer and follow the instructions on the screen. When prompted, select "custom installation" if "Q-Live" feature is required (you will need to disable the "Wincaps Q4" feature as Q4 is installed by default).
- NB: For Q-Live services, including Q-News, contact support@broadstream.com

2.2 Licence installation

- As above for Licence Server. Licence Server must be Version 9.6 or above.
- Please contact support@broadstream.com for assistance with local licencing.
